

CREATE A SPOT RFQ

IN

SECONDS

CONDITIONS

SIMPLE A TO B CONNECTION

FREQUENTLY RECURRING EVENT

SIMILAR REQUIREMENTS

The Ticontract spot functionality works best for road, air and sea freight RFQs with a simple sending structure, and especially for frequently recurring events with similar requirements to the carriers.

PREPARATION

SET UP RFQ STRUCTURE

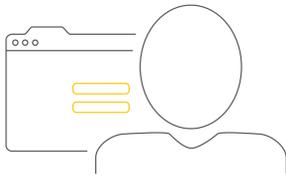

DEFINE BIDDING RULES

CREATE CARRIER LIST

Create your RFQ as a template. Set up the sending structure, the feedback and bidding rules, and the carrier pool that will be invited one time, then define the fields for the quick edit form.

STEP 1 - LOG ON TO TICONTRACT PLATFORM

Cloud-based platform for worldwide access and collaboration

Browser compatibility with Edge, Chrome and Firefox for quick and easy ramp up with no implementation effort

Multuser account with different user roles and subsidiaries to reproduce corporate structures and workflows

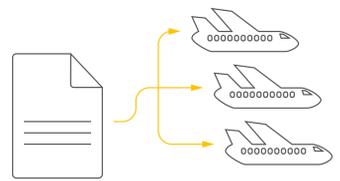

Create new RFQ and choose from predefined templates

Unlimited number of templates can be created from scratch, from existing RFQs or other existing templates

Templates can be assigned to different users with different user rights for global collaboration

STEP 2 - CREATE RFQ FROM TEMPLATE

STEP 3 - FILL IN QUICK EDIT FORM

With the quick edit form, only the relevant or variable fields of the RFQ have to be filled in

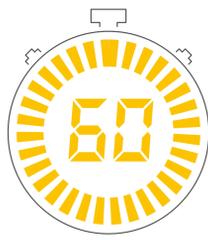

All static fields and the whole matrix structure are already prefilled

Which fields have to be modified in the quick edit form is specified in the chosen template

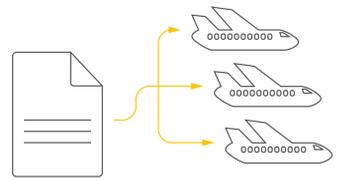

Save and publish the new spot RFQ with just one click

All service providers from the predefined carrier group are automatically invited to the RFQ

Before the RFQ is published, the system runs an automated plausibility check

STEP 4 - PUBLISH RFQ AND INVITE CARRIERS

CHECK RESULTS AND ALLOCATE

View all offers—including all information from the matrix—at a glance

Choose the winner and send a confirmation e-mail directly from the evaluation screen

Send rejection e-mails directly from the evaluation screen

DIGITIZE YOUR FREIGHT PROCUREMENT AND BENEFIT FROM

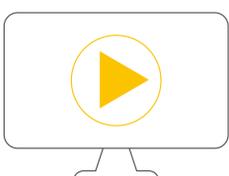

A huge database with more than 50,000 qualified service provider profiles

The specialized platform for freight procurement with more than 20,000 RFQ events per year

An e-sourcing tool used by 500+ of the leading shippers worldwide
