Freight Audit

In today's fast-paced business world, traditional freight audit methods struggle with significant challenges that can negatively impact a company's profits. That's why businesses require a freight audit solution that is powerful, precise, and efficient. And that's where our Freight Audit solutions come in.

Freight Audit facilitates a comprehensive ecosystem encompassing transport booking, execution, and audit, all seamlessly integrated for optimal efficiency. It is an automatic audit process, with minimal manual intervention, ensuring accuracy and time savings.

Gain full transparency into the audit process and statuses, while clean shipment data enables reliable reporting opportunities, unlocking powerful insights for your business.

CHALLENGES

INACCURATE DATA
Freight audit faces the challenge of dealing with inaccurate data, which can result in incorrect billing and payments, causing financial losses to businesses.

MANUAL PROCESS
Traditional freight audit methods rely heavily on manual processes, which are time-consuming, error-prone, and costly. This challenge calls for automation to improve efficiency and reduce costs.

LIMITED VISIBILITY
Freight audit often lacks visibility into shipping data, resulting in missed opportunities for cost optimization and improved supply chain management.

COMPLIANCE TOPICS
Freight audit must comply with a range of regulations, including customs and trade compliance, which can be complex and challenging to navigate without adequate expertise and technology.

FEATURES

› **INTEGRATED DATA**
Effortlessly integrate and calculate shipment data with accurate rates and information sourced directly from the Transportation Management Platform for streamlined and precise freight audit.

› **REAL-TIME ANALYTICS DASHBOARDS**
Get a real-time view of key metrics such as freight spend, enabling a more informed decision-making.

› **AUTOMATED PROCESSING**
Fully automate the process of invoicing and payment status tracking, reducing the need for manual intervention and minimizing errors.
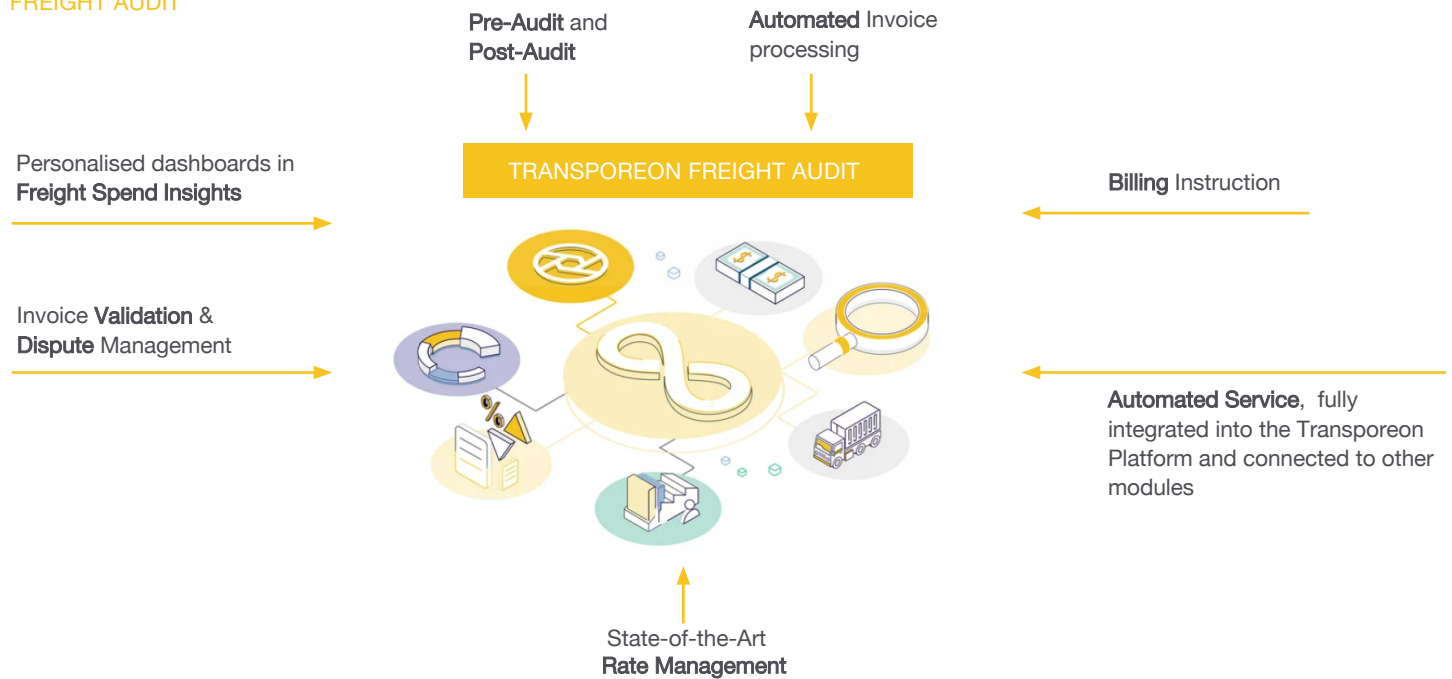

› **CUSTOMIZABLE REPORTS**
Create custom reports and dashboards tailored to your specific needs, providing you with better visibility into transportation operations

› **ONLINE DISPUTE MANAGEMENT**
Manage disputes related to freight invoices or transportation services online, reducing the need for manual intervention.

HOW IT WORKS

FREIGHT AUDIT

Pre-Audit and Post-Audit

Automated Invoice processing

Personalised dashboards in **Freight Spend Insights**

TRANSPOREON FREIGHT AUDIT

Billing Instruction

Invoice **Validation** & **Dispute** Management

Automated Service, fully integrated into the Transporeon Platform and connected to other modules

State-of-the-Art **Rate Management**

Save time, reduce errors, and gain valuable insights into your supply chain operations

BENEFITS

❭ Indisputable data for better decision-making

❭ Guaranteed Compliance

❭ Automated cost allocation

❭ Seamless integration for automated invoice booking

❭ Real-time accruals available 24/7

❭ Additional cost avoidance potential thanks to availability of audited data

"The Freight Audit process drives efficiencies through cost avoidance, providing unparalleled visibility, supplier control, accruals and labor relief. Without a shadow of a doubt, the most important thing from my perspective is that we can guarantee compliance."
